### Electrolytic Grinded Cannula with Wider Injection Hole

Flawless surface helps smoother insertion

### Ultra Thin Wall

Provides safer and smooth injection

### High Quality Stainless Steel

Excellent flexibility and tenacity

### Polycarbonate Hub with Screw-Lock Type

Stable locking and enduring higher pressure

### Precise Injection

User-friendly Scale mark & Dot locator for more accurate injection

## ABSOLUTE CHOICE by DOCTORS

KMI IMI Group's electro polished ultra thin wall cannula with blunt tip enables atraumatic treatment with most fillers.

Fine Micro Cannula features:

- **Ultra Thin Wall**; A wider caliber enables less extrusion force and results in smoother and more controlled injection.
- **Clinical Safety**; Slowly curved cutting edge of side hole and specially polished and coated surface help prevent tissue damage.
- **High Quality Stainless Steel**; Absolute flexibility and strength of the stainless steel.
- **Precise Injection**; Gradation and dot locator ensure precise injection.
- **Pre-hole Sharp Needle**; Cannula is presented in a blister package containing a pre-hole sharp needle with the same diameter.
